Winged Artist Dies

From Effects of Gas

(Special from United Press.)
Winsted, Oct. 1.—Miss Anna H. Bradford, aged 66, who was found lying unconscious in her apartments on Main street yesterday from the effects of gas, died early today in the Litchfield County Hospital. Her death is believed to have been accidental. Miss Bradford was born in Schenectady, N. Y., and was a graduate at Seminary at Norton, Mass. She was an artist of some ability. A George Bradford, survives her.

Weather Indications

erally this morning in all sections east of the Rocky Mountains. Light rain has fallen during the past 24 hours, in the lake region and northern portions of New England. An area of high pressure central over the western portion of the lake region will move slowly eastward and produce pleasant weather in this vicinity for two or three days.

A NARROW ESCAPE

Edgar N. Bayliss, a merchant of Robinsonville, Del., wrote: "About two years ago I was thin and sick, and coughed all the time and if I did not have consumption, it was near to it. I commenced using Foley's Honey and Tar, and it stopped my cough, and I am now entirely well, and have gained twenty-eight pounds, all due to the good results from taking Foley's Honey and Tar." P. B. Brill, local agent.

TAMMANY CHOOSES GAYNOR FOR MAYOR

And Declares for Municipal Ownership of Public Utilities.

(Special from United Press.)
New York, Oct. 1.—Tammany Hall and municipal ownership of public utilities. New Yorkers to-day are slowly recovering their breath following the declaration by the Tammany convention which last night nominated Justice of Supreme Court William J. Gaynor for Mayor.

"We favor municipal ownership and control of public franchises and utilities." Nothing of this kind was looked for from Tammany which in the past has declared municipal ownership a "vision of socialism." But to-day politicians are looking for the reason for the radical departure from the Tigers' usual conservatism.

One reason advanced to-day is that Justice Gaynor forced the adoption of the plank in order to forestall a campaign by William R. Hearst heading the Independence League City ticket on a similar platform. But no matter what the reason the rank and file of the political sharks declare that it will give Tammany a distinct advantage in the coming campaign.

The complete ticket nominated by the Tiger includes Justice Gaynor for Mayor; Robert R. Moore, president of the Commercial Trust Company, for comptroller; and John P. Calvin, a rich manufacturer, for president of the board of aldermen.

The convention also saw the downfall of Patrick H. McCarren, whose candidacy for the nomination of comptroller was turned down. Should Tammany win at the coming election Murphy will fare fully as well at the hands of Gaynor as will McCarren, although the Justice comes from Brooklyn, while the rich office of comptroller will be directed entirely from Tammany headquarters at Moore and Murphy are intimates.

Gaynor will resign from the Supreme Court bench at once. In announcing that he will accept the nomination he insists that he has made no pledges and that he will, if elected, oppose official oppression in all forms.

WELLESLEY GIRLS CARRYING PISTOLS

(Special from United Press.)
Wellesley, Mass., Oct. 1.—Terrified by the activities of a "Jack the Huger" who is busy here, scores of girls at the big Wellesley seminary for young women are today carrying pistols to repel the intruder and the police of the town are staying out nights to catch him. These huge numbers so far have been Mrs. James Atkinson, a pretty young matron of the town, and Miss Isabel Bradwell of Brooklyn, a student at Wellesley. Both were attacked on the fringe of a small hamlet near here and only escaped after sharp struggles with the intruder. In both cases the clothing of the women was badly torn and the feeling is general that it is possible that only their stout resistance prevented the attacks from becoming tragedies.

IN DUEL WITH FOUR POLICEMEN

(Special from United Press.)
Newark, Oct. 1.—Albert J. Demarest, who came to Newark several years ago from St. Louis, died in the Orange hospital to-day from two revolver bullet wounds received late last night in a duel with four policemen at his boarding house here. Demarest earlier in the night had tried to shoot Adam G. Marshall who lived in the same house and then took refuge in his room announcing that he would shoot anyone who tried to interfere with him.

A warrant for his arrest was procured by Marshall and placed in the hands of the police and four of them started for his house. When they knocked at the door he warned them not to enter but they broke down the door and he started shooting. A revolver duel followed and Demarest was hit twice, once in the abdomen and once over the heart. He was hurried to the Orange hospital where he died.

Death Toll of Alps Arouses Government

(Special from United Press.)
Geneva, Switzerland, Oct. 1.—The annual death toll of the Alps, this year, 151 killed and 217 injured, has aroused widespread public opinion throughout Switzerland and the strongest pressure possible is being brought to bear in favor of the enactment of strict regulations to restrain mountain climbing. This year the majority of the victims of the high peaks were either inexperienced mountain climbers or pleasure seekers wishing to make the highest without guides.

CARD INDEX TO REPLACE MEMORY OF FINNEGAN

A new card system is about to be installed at police headquarters by the police commissioners who, at a meeting of the board, last night, appointed Commissioners Hill and Coughlin a committee to arrange and decide upon the use of the card system. The purpose is to have a ready reference system with the record and description of petty offenders and others for the use of the court and the prosecuting attorney. If the judge now desires to know how many times an offender has been before the court he will refer to the cards instead of to Court Officer Finnegan whose memory for faces and sentences has been relied upon. The court officer is never mistaken but it is thought that a card system would be a big improvement. In that the information wanted can be known exactly.

TALK NO. 432 A TEST

Take a piece of card board and prick a hole through it with a pin, close one eye and look at some distant object, through the clock for instance, through the perforation. If you can see more distinctly in this way than with the naked eye you may know that you need glasses. There is not the slightest doubt of it. This is one of the most reliable tests that we have. It is not, however, a negative test. The fact that you can not see better through the opening is not a sign that you do not need glasses. There are many people who can see much better with the naked eye than need glasses; but no person whose vision is improved by this test ought to do without a glass single moment. Try it—let us know the result.
